

Change in member guest policy:

Due to the increased use of LVPOA parks, we are finding it necessary to limit how many guests a member may bring into the parks at one time. We will also require that the member or tenant of record request any guest passes. Effective July 17, 2017 a member may request up to two vehicle guest passes for any day, and we reserve the right to limit each guest vehicle to no more than 6 passengers. Also effective July 17, 2017 the member or tenant of record must request the guest pass. We will no longer allow others within the member or tenant of record's household to request a guest pass. We will have a process for a member or tenant of record to complete a form giving a member of their household express permission to request a guest pass. This form will be available on our web site by July 12th.

Any member who is planning an activity that would require more than the two vehicle guest passes should contact the office to complete an exception request. Exception requests must be submitted a minimum of 14 days prior to the day for which the passes are requested. The exception request form will also be available on our web site by July 12th.

Members reserving a pavilion will be governed by the rules regarding pavilion reservations, and will be allowed guest passes equal to 50% of the stated capacity of the pavilion for use during the time of their pavilion reservation. We will also begin enforcing the stated pavilion capacity.

Thank you for your understanding and compliance with these changes. Our facilities are for the use of our members, and the number of guests being brought into our parks some members are interfering with the enjoyment of the parks by our members. We have recently had many member complaint about the number of non-member guests in our parks, and are implementing the new procedures to protect the interest of our members while still allowing them to enjoy the facilities with a reasonable number of family members and friends.

Please direct any comments or suggestions you have about these new procedures to our general manager, Vicki Wood, at gm@lvpoa.org.
